# Lab 3: Documentation and Testing Lab

Note: This work must be completed by the end of the lab.

## Goals:

1. Be able to document programs effectively.
2. Be able to test programs thoroughly.

## Tasks:

- (/10) Add relevant documentation to Signal.java and Intersection.java (see D2L).
- (/10) Add relevant tests to Signal.java and Intersection.java.

## Documentation:

Add Group 1 comments to the Java classes listed above. Be sure to follow the format discussed in class:

/**	
* Brief description.	[Always mention this]
* <p>	
* Preconditions: ??? 	[Always mention this]
* Postconditions: ??? 	[Always mention this]
* Cleanup: ???	[Always mention this]
* <p>	
*	
* @param ??? ???	[Don't mention this if not applicable]
* @return ???	[Don't mention this if not applicable]
* @throws ???	[Don't mention this if not applicable]
*/	

## Testing:

Add JUnit tests to the Java classes listed above. Be sure to test thoroughly. Before submitting printouts, please demonstrate your tests.

---

Instructor Stamp

## Submission:

Please hand in the JavaDoc documentation for Signal.java and Intersection.java. Also hand in a printout of your JUnit tests.
